## NeutralPosture

Tools:	Phillips screwdriver ¾" Socket wrench
People Required:	1 Person

Time: 5 Minutes

## Palm rest Installation/ Replacement

Attach palm rest to, or remove it from, the aluminum tray with the 2 Phillips-head screws that secure it from the underside of the tray. Installing Tray to Arm

Position the tray over mechanism/arm so the pre-installed bolts in the tray line up with the holes in the arm mounting plate. Install and tighten a lock washer with a <sup>3</sup>/<sub>8</sub>" nut on each of the threaded bolts to secure it to the mounting plate.

## **Removing Mouse Platform**

To remove the mouse
platform from the tray, simply
remove the large Phillips-head
screw that secures it. Note:
Contact your Neutral Posture
before attempting to re installing the mouse platform.
